**UNIQUE PROTEIN SOURCES / PRE & PROBIOTICS / GRAIN FREE / FRUITS & VEGETABLES / NATURAL ANTIOXIDANTS**

# THE GOLD STANDARD IN GREYHOUND FEED:

Greyhound Racing Formula is a scientifically developed feed using key nutrients to help support the entire health and well being of your greyhound athlete whilst delivering real results in all areas of performance, safety and effectiveness.

GRF new GRAIN FREE holistic formula meets the high stress and physical needs of your racing greyhound. GRF will help to maintain and enhance stamina, endurance, muscle development, gut health and digestion. GRF provides all of the vitamins and minerals which are required in increased amounts by performance greyhounds. A shortage of any essential nutrient will significantly reduce performance, health and recovery until the deficiency is corrected. Many of these nutrients are critical to muscle, nerve, gut health and heart function for efficient energy production especially during periods of maximum strain. All key areas of nutrition are met with the unique combination of ingredients in GRF.

Greyhound racing Formula (GRF) is the new Gold Standard in high performance grain free holistic formula feeds. This new standard goes above and beyond industry standards to give your greyhound that competitive edge you have been searching for.

## THE HIGHEST QUALITY INGREDIENTS

Fresh meats roasted and smoked for greater flavor! we only market a superior greyhound feed and didn't compromise on quality. That's why we source the finest ingredients and establish solid relationships with our trusted suppliers to ensure we're always getting the very best. GRF is unique because it's based on your greyhounds needs ensuring optimum health through quality scientifically researched ingredients.

## SCIENTIFIC FORMULA

GRF is based on the latest animal nutrition research and is carefully designed to meet the high demands of your racing greyhound. You can rest assured you're getting the very best nutrition from GRF. Here are some of the benefits you'll find in Greyhound Racing Formula:

- Real meat for great taste and highly digestible protein
- Fruits and vegetables provide antioxidants for a healthy immune system
- Properly balanced omega-3 and omega-6 for healthy skin and coat, and reduced inflammation of skin, joints and digestive system
- Proper fat ratios for sustained energy levels
- K9 specific Probiotics for gut health

Our team of nutritionists and scientists discerningly choose only top quality meat, fruit, and vegetables to enhance the health of your greyhound.

## GRF IS GRAIN FREE ALLOWING FOR EASE OF DIGESTION

GRF grain free formula tastes amazing and provides ease of digestion for your greyhound whilst giving it the energy and antioxidants it needs for a healthy and functioning immune system. A protein rich, grain-free diet eliminates the chances of bad reactions to food and enhances the greyhound's digestion.

## PROBIOTICS

### WHY PROBIOTICS ARE IMPORTANT?

Approximately 70% of the animal's immune system resides in the gastrointestinal (GI) tract. In other words, a healthy digestive system is essential to keep your pet's overall health. Therefore, GRF is enriched with K9 specific probiotics.

## A K9 SPECIFIC PROBIOTIC STRAIN

Probiotics added to the animal feed often contain a mixture of various beneficial bacteria. But there is no guarantee that they can survive in the digestive tract of dogs. That is why we only use a probiotic specific K9 Strain. These are based on bacteria that are commonly found in the canine GI tract, and it is proven that they are able to survive the digestive tract. We can guarantee that every kilogram of GRF delivered to the digestive tract of your greyhound contains 200 million live active cultures.

Using manufacturing standards that are as strict as in the production of food for humans; we guarantee that both our kinds of probiotics absolutely do not contain any harmful pathogens or other contaminants.

## DIGESTIVE SUPPORT AND GUT HEALTH

Natural fibre ingredient's including K9 specific pre & probiotics help support a healthy digestion, improves gut health and feed conversion.

## GOLD STANDARD HIGH PERFORMANCE GRAIN FREE FORMULA

Greyhound Racing Formula is the new industry Gold Standard. A formula designed with your greyhound's every day needs in mind, containing trusted ingredients you would expect from a premium feed without the grains... Real meat, pre and probiotics including antioxidants all come together for a highly palatable, easy digestible and highly nutritious feed.

## GRAIN FREE FORMULA

Our grain free formula provides optimal nutrition for your racing greyhound, especially those that are sensitive to grains and dogs that heat up due to excessive grains.

## REAL MEAT: BISON, LAMB AND CHICKEN

Using premium real meat in GRF ensures your greyhound gets a superior protein that's highly digestible. This source of protein provides amino acid building blocks for lean body conditioning and strong muscles.

## FRUITS AND VEGTABLES

Peas, tomatoes, blueberries, raspberries, blackberries and other natural produce provide vitamins, minerals, powerful antioxidants and vegetable fiber to help support overall good health and well being.

## CHELATED MINERALS

During the digestion process, minerals are attached to proteins for absorption from the digestive tract. We include proteinates in our recipe to help promote easy absorption for optimal mineral nutrition.

## PROCESSED WITH PURIFIED WATER

A water purification process known as reverse osmosis is used in the cooking process. In reverse osmosis, water is forced through extremely fine filters, removing microorganisms, organic chemicals, and inorganic chemicals. The end result is purified water, which is then used in the form of steam in the cooking process.

## A NU-AGE FEED BLEND

Today many top trainers favour holistic, natural ingredients for their racing greyhounds. GRF not only contains unique animal protein sources, but also is devoid of any corn, soy or wheat. Made with real roasted meats and supplemented with fruits and vegetables, the grain-free formula provides a superior taste sensation, highly digestible energy and natural antioxidants to support a healthy immune system and overall health.

## GREYHOUND RACING FORMULA DESIGNED FOR GREYHOUNDS AND HIGHLY ACTIVE DOGS

The high demands and physical needs of your greyhound are different from other dogs, that's why GRF has been scientifically designed specifically for racing greyhounds. GRF provides all the essential nutrients your greyhound requires for overall health and optimum performance.

## ANALYTICAL CONSTITUENTS

Protein 32.0%  
Fat Content 18.0%  
Crude Fibres 3.0%  
Crude Ash 9.2%  
Moisture 10.0%  
Omega-6 Fatty Acids 2.8%  
Omega-3 Fatty Acids 0.3%  
Trace Elements  
Ferrous Chelate of Amino Acids Hydrate 60 mg/kg  
Cupric Chelate of Amino Acids Hydrate 7.0 mg/kg  
Ferrous Sulphate Monohydrate 60 mg/kg  
Copper Sulphate Pentahydrate 7.0 mg/kg  
Potassium Iodide 1.5 mg/kg  
Manganous Chelate of Amino Acids Hydrate 14 mg/kg  
Manganous Oxide 14 mg/kg  
Manganese Sulphate 14 mg/kg  
Zinc Chelate of Amino Acid Hydrate 75 mg/kg  
Zinc Sulphate 75 mg/kg  
Sodium Selenite 0.3 mg/kg  
Calcium: 2.1%  
Phosphorous: 1.4%

### Additives (per kg) Vitamins:

Vitamin A 10,000 IU/kg

Vitamin D 750 IU/kg

Vitamin E3 150 IU/kg

**Sensory Additives:** Natural Flavour

**Calorie Content:** 3,719 kcal/kg (370 kcal/cup) Calculated  
Metabolizable Energy

**Available Sizes:** 18.1Kg

## HIGH PERFORMANCE GRAIN FREE FORMULA

UNIQUE ANIMAL PROTEIN SOURCES • FRUITS AND VEGETABLES  
NATURAL ANTIOXIDANTS • K9 SPECIFIC PRE & PROBIOTICS • GRAIN FREE
